Gotti was a 9 year old male cat loved and will be truly missed by myself and others. He was likely a son/ best friend to me to say the least . My heart is broken now that he is gone. I thought Gotti and I would somehow go out of this world together but that wasn't the case. With his charismatic behavior - he truly was the "Teflon Don of Kitties" with his beautiful grey coat and handsome looks. Gotti was full of personality and many people would describe his personality as similar to a human being or dog. He was always getting into something and definitely didn't live a boring life.

I had him ever since he was about one month old when my mother discovered him completely strayed and separated from his cat family on her Maryland farm . My mother caringly took him in too save him as he was in a bit of danger because of his young age/ size and other animals in the area. With the help of my aunt - they took care of him for a couple weeks before I met him and decided to give him a forever home . He was loved by all my close friends and family that got the chance to meet this one of a kind cat.

He was an indoor cat throughout his lifetime although he did manage to sneak outside a few times in his years. Gotti did like to stir up a little innocent trouble here and there haha. He loved any type of cat food that had seafood in it to say the least. Gotti enjoyed sitting on the window ledge looking out the window during the day like a guard dog or security type. . He was truly a sweetheart and full of personality . Words can not give him the credit / justification he rightfully deserves.

To Gotti: Thank you for the many years of friendship and wonderful memories. You were without a doubt the perfect pet for me. Words cannot describe what you mean to me. I truly miss you and always will love you. I'm sure you are thinking the same about me buddy . I know your in "kitty heaven" looking over and out for me now and we will meet again . Gotti - I will truly miss and love you always and forever -Paul
